BUILDING FUTURES

CEO MESSAGE

Dear Clients and Partners,

Over the past 15 years, Unicons has built a distinguished industry-wide reputation as one of the most competent general contractors in Vietnam. We have constantly extended our portfolio by delivering high quality, complex projects of industrial factories, residential and commercial high-rise buildings and world-class hotels and resorts throughout Vietnam

Our success today derives from the ceaseless desire for improvements of a united team. We work with high passion and total dedication in order to achieve the best results.

Consequently, we have won the trust of many local and international clients, who in turn set us as a leading benchmark in technical innovations.

As a core member of the Coteccons Group, the market-leading General Contractor in Vietnam, we can offer many single integrated Design and Build solutions for the entire project – all to the high standards that are synonymous with the Group brand. Other traditional delivery methods such as General Contracting and MEP services are also among the strengths that define our brand "Coteccons Group - Unicons" in the market..

Today, our strength resides in a united team whose full passion is in construction and technology. What makes our staff successful also lies in the in-depth services we offer and the utmost safety criteria we follow.

For the future, we are ready to fully embrace the challenges and be pioneers in worldwide construction trends. With a proven track record we take pride in our ability to provide tailored construction solutions that suit all the projects needs and fully satisfies your expectations.

We are always looking for the next win-win cooperation with you.

Best regards

Tran Van Lam

ORGANIZATIONAL STRUCTURE

SUSTAINABLE DEVELOPMENT

GO “GREEN”

Given awareness that environment is the most important factor to determine the value of each project as well as the statue of Vietnam’s construction industry, Unicons is committed to working under advanced “green” building solutions.

Unicons is an active member of Vietnam Green Building Council (VGBC) and one of the few Vietnamese contractors awarded ISO 14001:2015 certification for environmental management. During the construction process, Unicons always proactively advises the Clients on safe and eco-friendly construction solutions. We are committed to working with the Clients in all “green” projects that require the highest environmental standards such as LEED, LOTUS, and Green Mark.

SOCIAL RESPONSIBILITY

WE FOSTER THE HAPPINESS OF HELPING OTHERS

At Unicons, we have a strong commitment to sharing our responsibility with the society. Indeed, our wealth must be in line with the prosperity of the nation. Various activities like charitable events, student scholarships or blood donation are regularly held to extend our help to people.

» HUMAN RESOURCES

THE GREATEST ASSET OF UNICONS IS OUR PEOPLE

In all respects, human resource is the foundation for Unicons' success. Unicons is proud of our team with high qualification, strong enthusiasm and increasing creation toward perfecting themselves.

The current human resource of Unicons is the achievement resulted from experience, passion, innovation, teamwork and solidarity of all employees. As one of the pioneers in construction industry, Unicons sets the mission to create high quality products from the hands and minds of true and dedicated people.

We are aware that it is necessary to invest in human resources to create internal strength to be confident in leading all competitive tendencies. Beside hunting good human resources from prestigious universities in Vietnam and abroad, we regularly organize internal training and coaching to provide appropriate skills and guidance on application of management system. Every year, human resource training plan is updated in line

with the Company's development strategy to build a team of high qualification, professional conscience and occupational ethics.

Together with the Company's revenue growth, human resource also grows from project to project. The number of employees of Unicons in 2018 develops to more than 1,000 employees who are mainly engineers, architects and graduates from the most prestigious universities in the country.

OUR STRENGTHS

» SAFETY CULTURE

SAFETY IS THE CORNERSTONE OF OUR CORPORATE VALUE

Given awareness that people are valuable assets, Unicons gives high priority on the mission of ensuring safety of human beings and health of all workers and related parties during the Company's operation. Actual construction has shown the Company's high attention and investment in safety personnel and equipment for more than 1,000 employees and 15,000 workers who are facing danger when working on site.

Where Unicons is present, everyone comes back home after each working day in a safe and healthy manner without any accidents, any injuries.

MANAGEMENT SYSTEM MEETING INTERNATIONAL STANDARDS, COMMITMENT ON SERVICE QUALITY TO CUSTOMERS

Completion of projects in safe, quality assurance and on schedule is the goal, the commitment, and the “prestige” of Unicons.

Unicons is one of the few contractors in Vietnam receiving ISO 9001:2015 certification (quality management), ISO 14001:2015 certification (environment) and OHSAS 18001:2007 certification (occupational

health and safety). We consider quality management, environment, occupational health and safety systems as tools to work effectively. Therefore, our system is written in a streamlined, easy-to-use, focus on practical application. We are committed to bringing customers the projects of exceeded expectations..

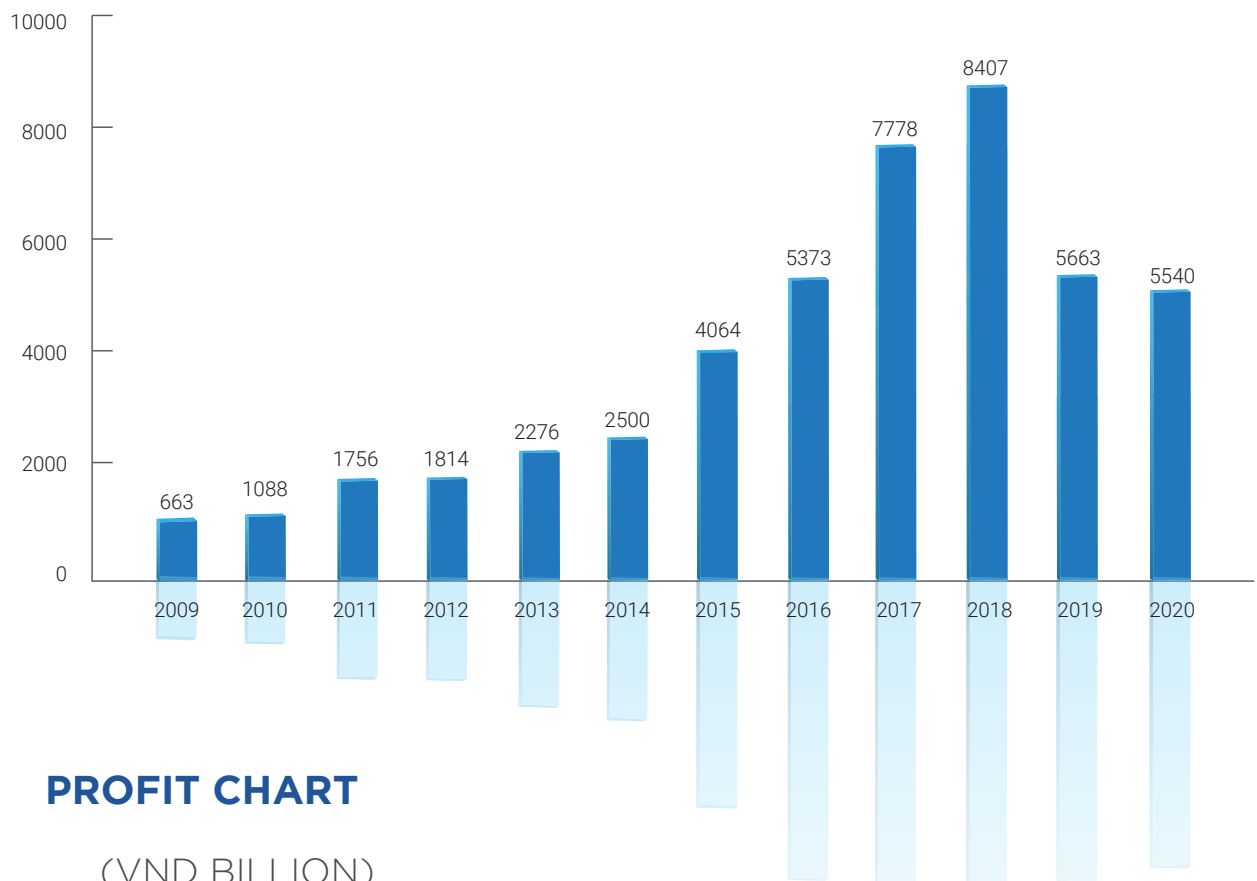

FINANCIAL CAPACITY

In order to manage and execute many large scale projects, Unicons is confident of its strong and transparent financial resource. Over 15 years of establishment and development, Unicons has made steady progress in the market with impressive revenue and profit growth. In 2018, Unicons' revenue is expected to reach 10,000 billion VND, officially confirming its position as one of the most prestigious construction contractors in Vietnam.

DESIGN AND BUILD

PERFECT IMPLEMENTATION STRATEGY FOR PROJECTS

To be the pioneer in Vietnam in Design & Build (D&B) model, Cotecons - Unicons is a brand trusted by many clients as a General Contractor for Design & Build of super projects.

With Design & Build model, Unicons is committed to bringing outstanding values to the Clients:

- Simplifying complicated and risky stages of traditional construction process (Design - Bid - Build), concentrating responsibility to only one contractor: Unicons
- Speeding up project progress to 30%, entirely controlling quality and safety.
- Enhancing project brand and multiplying sale competition/functional exploitation.
- Minimizing project budget and optimize cash flow.

GENERAL CONTRACTOR

As Design & Build Contractor, we are committed to providing outstanding and long-term values.

- Shortening progress, concentrating all work to the only one contractor – Unicons, increasing cash flow efficiency for the Client.
- Optimizing manpower cost in project management.
- Consulting method statement and material suitable to the investment value.
- Being proactive in all stages from organization, supervision and regulation of project schedule and commitment to construction safety and quality of the entire project for the Client.

M&E (MECHANICAL & ELECTRICAL) CONTRACTOR

Unicons is not only highly regarded in the field of Design and Build, but also one of the market leaders in the field of M&E works – one of the traditional and main strength of Unicons.

The smooth combination between construction and M&E in the same package by a General Contractor will help the project performed smoothly and bring benefits to the Client. On the other hand, close coordination between M&E and Structure – Architecture works from the beginning can help optimize and speed up progress and ensure quality.

Advantages in choosing Unicons for M&E works:

- Saving time for project deployment, considerably shortening execution time.
- Responsibility of the Contractor is shown clearly in both construction and M&E.
- Maximally saving finance for customer: Optimizing Prelim costs, simplifying management apparatus for the Client, shortening project completion time and, therefore, minimizing project management costs.
